

I took a picture of my new shoes when Abby and I headed out for our walk on Saturday. Aren't they an awesome green? I just love it. They feel so springy to me. I kept the camera out as we walked just in case we found other signs of Spring.

Doesn't look very Springy at first but if you pay attention you'll notice

... lots of new, fresh smells to track - maybe even someone with the barbeque out.

many new side trails made by our small furry neighbours.

bushy willows starting to show - they're hard to see but they're there.

buds on the trees and a clear blue sky.

and a bright, warming sun.

What are your first signs of spring?
