## Vacation Photos #1: Plants

Monday, 09 July 2012 00:02

---

I stayed with my grandmother for the first few days of our trip and got to help her pick out plants and flowers for her garden. Wandering through the nurseries and storing away ideas for future summers was so much fun. I learned a little more about how to chose plants and how to plan a garden and hopefully will remember a few more names next time I'm talking about flowers.
